Institutional Information Management System

For Schools, Colleges, Universities, & Training Institutions

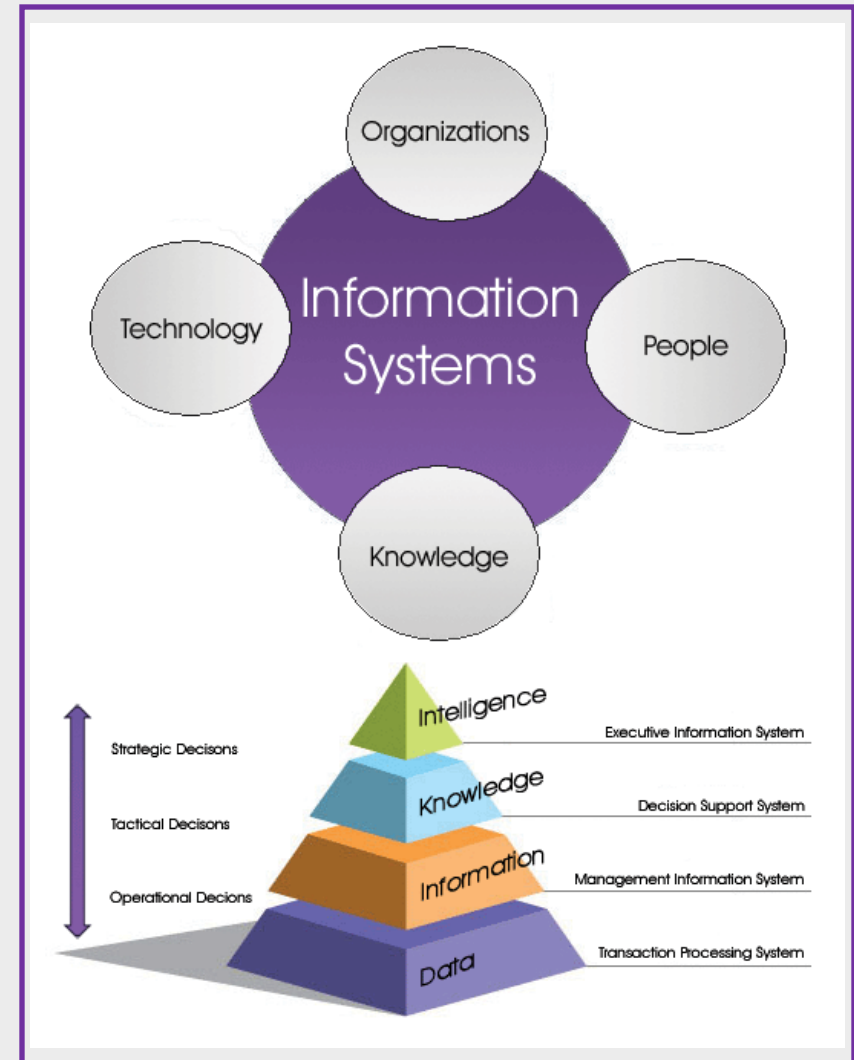

MyInstitution.Net

Intro – Information Systems

- **Information Systems** have become essential for almost every successful organization in this Information Age.
- However, it is not always possible to develop and deploy advanced Information Systems due to technological, financial, and time constraints.
- MyInstitution.Net is a comprehensive online Institutional / School Information Management System (SIMS) especially designed for the educational institutions of all types and levels.
- It allows the educational institutions to overcome the technological, financial, and time constraints.

MyInstitution.Net

Data Access & Control

MyInstitution.Net offers a great strategic advantage to the educational institutions due to its excellent services and features:

- **Institutional administrators, teachers, students and their parents get an online access to their relevant data and reports after authentication through a User ID and Password.**
- **A supervisory environment for higher authorities of educational institutions.**
- **Class Incharge may view or enter student results, attendance, homework etc. as authorized by Administrator.**
- **Seamless recording, editing, and retrieval of data relating to Student, Teachers and the Institution.**
